Disclosures and Testimonials

COVID-19

- This product is ONLY to be used when FDA cleared masks are unavailable
- This product is recommended against use in a surgical setting or where significant exposure to liquid, bodily or other hazardous fluids can be expected.
- This Product makes no claims of antimicrobial or antiviral protection
- This Product makes no claims of infection prevention or reduction
- This Product makes no claims regarding flammability
- This Product contains the following components & materials that have contact to the body: Headband: Non-Latex elastic Fabric

Designed to work in conjunction with other Personal Protective Equipment (P.P.E). Gives maximum protection when worn with N-95 masks and protective eye wear.

Testimonials

Great service! I placed my order on Sunday and received my order of 100 masks delivered the very next morning. Very quick to respond and answer questions. Excellent product overall.

Ordered the face shields because I wanted to donate supplies to medical professionals. I talked with one of Velocity's associates, Jonathan Turner, and he even gave me a discount on my first order of 100 masks. Delivery was scheduled for Monday, but I actually got them a day early.

quick turn around for health care supply order.. Jonathan was great!!

Product Update Notification

April 10, 2013

Re: 1860/1860S Package Appearance and Shelf Life Markings

Dear Valued Customer:

This letter is to notify you of recent changes in the outer packaging (box) appearance for 3M™ Health Care Particulate Respirators and Surgical Masks 1860 and 1860S. Please note that the products themselves have not changed. The packaging was updated for marketing purposes and to address shelf life markings. The photos below show the front panel of the new packaging for the 1860S (small) and the 1860 (regular).

1860S (Small)

1860 (Regular)

Shelf life markings

3M has been in the process of establishing a shelf life for our healthcare filtering facepiece respirators. Traditionally the life cycle of these respirators commonly used in health care workplace applications, from date of manufacture to use by the customer, has been short in duration as they are disposable. However, with the increased attention to respirator stockpiling, many customers have requested information on storage conditions and shelf life. The shelf life determination for each respirator model is product specific, based on material components and

Technical Specification Sheet

3M™ Health Care Particulate Respirator and Surgical Mask, 1860, N95

Key Features

- NIOSH approved N95 rating
- FDA cleared for use as a surgical mask
- Fluid Resistant 120 mmHg
- Flammability Rating Class I
- Adjustable nose clip
- Braided and stapled headbands

Material Composition

- Straps – Braided Polyisoprene
- Staples – Steel
- Nose Clip – Aluminum
- Nose Foam – Polyurethane Foam
- Filter – Polypropylene
- Shell – Polyester
- Coverweb – Polypropylene
- Not made with natural rubber latex
- Approximate weight of product: 0.40 oz.

Country of Origin

Made in the USA with globally sourced materials

Use For

- Intended to be worn by operating room personnel during surgical procedures to help protect both the surgical patient and the operating room personnel from transfer of microorganisms, body fluids, and particulate material.
- Always follow *User Instructions* and use in manners as indicated

Do Not Use For

- DO NOT use in industrial settings
- DO NOT use for gases or vapors (i.e. anesthetic gases such as isoflurane or vapors from sterilants such as glutaraldehyde.)
- DO NOT use in any manner not indicated in the *User Instructions*

Approvals and Standards

- NIOSH approved N95 respirator
- Meets NIOSH 42 CFR 84 N95 requirements for a minimum 95% filtration efficiency against solid and liquid aerosols that do not contain oil.
- NIOSH approval number: TC-84A-0006
- FDA cleared for use as a surgical mask
- Health Canada Class I medical device
- Bacterial Filtration Efficiency F2101 >99% BFE
- Assigned Protection Factor (APF 10) per US OSHA and Canada CSA
