

SAFETY BARRIER

The Safety Barrier is designed to provide improved protection for interactions between employees and customers. Made with acrylic material, the Safety Barrier protects while maintaining a low level of visibility and an aesthetics quality that won't intrude on your businesses atmosphere.

SAFETY BARRIERS

AVAILABLE WITH THE CHOICE OF BLACK OR CLEAR LEGS

The Safety Barriers are made with a high quality 3/16" acrylic panel that is available in various sizes and features to best suit your work space. The panel is attached to 1/4" thick legs with aluminum perpendicular fork standoff screws that gives it a rigid build that sits planted firmly on any surface.
